Subject: Re: Galliano to Grand Isle TAGA monitoring
Date: 05/17/2010 06:45 PM

Thank you all for redirecting to attempt to address this issue. One additional request if possible.... If you detect any odors or have any elevated detections, could the TAGA collect a Summa for TO-15 analysis?

If I can be of assistance or answer any questions, please contact me at (214)665-7548 or via email at hansen.mark@epa.gov.

Sincerely,

Mark Hansen

Mark:

Had a follow up conversation with Dave in the TAGA. They cannot do BTEX on one leg and dispersants on the other. Tomorrow they will be running dispersants. Later in the week, I can schedule them to run the same route using BTEX if yall are interested. Please advise

Warren
